

Work History / Employment Sheet

Employee Information

Full Name: _____

Address: _____

Home Phone and Cell Number: _____

Job Title / Craft: _____

Years in Trade: _____

Heaviest load / lift you have worked with: _____

List and describe your work history in detail (who you worked for, previous employers and in what capacity, job description)

Have you been in a Supervisory Role (Superintendent – General Foreman – Foreman):

List and describe any trade specific training and classifications you have:

1. Are you experienced in and comfortable with critical lifts? Y or N
2. Are you experienced in and comfortable with preparing heavy loads for movement / dismantling?
Y or N
3. Are you experienced in and comfortable with equipment for large scale movement of materials?
Y or N
4. Are you experienced in and comfortable with calculating center of gravity? Y or N
5. Are you experienced in and comfortable with working in/on water inlets / outlets, floating and non-floating docks? Y or N
6. Are you experienced in and comfortable with ensuring compliance with safe rigging practices and at every step of the rigging process? Y or N
7. Are you experienced in and comfortable with computing the weight of material being handled and rigging equipment being used during removal? Y or N
8. Are you experienced in and comfortable with utilizing and selecting various chain falls, shackles, beam clamps, L shape beam clamps, different size Nylon straps, cables, slings, chains, winches, and pulleys, according to load weights, sizes and dimension of the object? Y or N

See back

9. Are you experienced in and comfortable with verifying work is being performed in compliance with drawings, specifications, and procedures? Y or N
10. Are you experienced in and comfortable with stopping work or refusing work due to an unsafe act or condition? Y or N
11. Do you understand what stop work authority is and how it works? Y or N
12. Are you experienced in and comfortable with attaching loads with grappling devices such as loops, wire, ropes, and chains to crane hook? Y or N
13. Are you experienced in and comfortable with giving directions to crane operator or hoisting engineer engaged in hoisting and moving loads to ensure safety of workers and material handled using hand signals, loudspeaker, two-way radio, or phone? Y or N
14. Are you experienced in and comfortable with assisting operators and riggers with maintaining clearance while lifts are being conducted? Y or N
15. Are you experienced in and comfortable with establishing center of gravity on loads when it is not identified with rigging points? Y or N
16. Are you experienced in the difference in "Demo" work versus "New" work, with regards to rigging points? Y or N
17. Are you experienced in and comfortable with controlled movement of heavy equipment through narrow openings or confined spaces? Y or N
18. Are you experienced in and comfortable with calculating loads, weights and measurements of lifts? Y or N
19. Do you understand and realize that you must verify cranes have their load charts, annual inspection and rating and specification plate? Y or N
20. Are you experienced in and comfortable with performing site surveys, task analysis, critical lift calculations? Y or N
21. Do you understand and realize that tag lines are required 100% of the time? Y or N
22. Do you understand and realize that you are NEVER to touch or grab a live load? Y or N
23. Do you understand and realize that you are NEVER to be under a load? Y or N
24. Do you understand and realize that you must verify rigging inspections are complete? Y or N
25. Are you experienced in and comfortable with lifts on water? Y or N
26. Are you experienced in and comfortable with lifts involving helicopters? Y or N
27. Are you experienced in and comfortable working on or near exposed de energized / energized parts? Y or N
28. Are you experienced in and comfortable with Nitro Construction Services LOTO procedure? Y or N
29. Are you experienced in and comfortable with working within proper working clearances when in close proximity to exposed energized parts or overhead lines? Y or N
